Dear Professor,

Greetings from Infosys!

It is my pleasure to write to you on behalf of Infosys' Talent Acquisition team. While you might be aware of Infosys as one of the best companies in the IT industry in India, and one of the top employers, we would like to take this opportunity to introduce you to HackWithInfy, one of our exclusive programs for students.

#HackWithInfy is our flagship India-wide hackathon for final year engineering students. It is a perfect stepping stone for students to explore their passion for coding and programming, and also an opportunity for them to compete and earn a chance to work with Infosys. The first India edition of #HackWithInfy was launched in 2018 and was open to select colleges/institutes/universities, with over 50,000 engineering students registering for the program and more than 600 participants winning job offers from Infosys.

Now we are all set to host the second edition of #HackWithInfy which is set to offer a richer and more endearing experience.

We would like to offer your students the opportunity to participate in #HackWithInfy 2019 and gain a head start in their career.
The registrations for #HackWithInfy are open to all B.E./B.Tech/M.E./M.Tech students in India who are graduating in the year 2020.

The competition offers:

- Cash prizes worth INR350,000

- Opportunities for pre-placement interviews to top 3,300 participants for niche technical roles at Infosys

- Opportunity to students to showcase their programming talent and earn peer recognition through two online rounds and a 24-hour hackathon in the grand finale.

We request your unwavering support in encouraging your students to take up this challenge and **REGISTER NOW for #HackWithInfy**.

Steps to register:

1. Students who are not yet a part of InfyTQ can download the app from Google Play Store or register on the InfyTQ website. Once you are logged in to InfyTQ, please follow point 2.

2. Students who are already on InfyTQ can visit InfyTQ homepage and access #HackWithInfy program banner to register for the program.

Last date to register for #HackWithInfy 2019 is Thursday, June 20, 2019.

To know more about the structure of the program and the rounds, please visit the #HackWithInfy website. If you have any queries, please write to us at hackwithinfy@infosys.com.

We look forward to your support in making #HackWithInfy 2019 a great success.

Best regards,

Shubhanshi Pandey
